**OUR
SERVICES**

➤ OUR SERVICES

COMPREHENSIVE AMC

Comprehensive AMC covers Quarterly Maintenance, Repairs & Replacement of faulty batteries at our cost. We can Revive or Replace faulty batteries/cells to ensure maximum back up with EBEP technology.

PREVENTIVE AND CURATIVE MAINTENANCE

This is non comprehensive maintenance which covers preventive and curative maintenance of all batteries. However, if any faulty battery/cells is to be replaced, it is charged on actuals.

BATTERY REJUVENATION WITH EXTENDED WARRANTY

Tesla power USA's EBEP technology helps in increasing the life cycle and back up of the batteries/cells of any make and gives cost benefit to the customer

HEALTH CHECK-UP OF BATTERIES

Health check up of batteries to identify defective batteries / cells and suggest next step to clients with detailed health check-up report of the cells. The revivable cells can be rejuvenated, and dead cells can be replaced under warranty.

➤ POWER AS A SERVICE

(PaaS)

PaaS is a unique solution to address the Energy Storage Gap & its open possibilities for the future growth. Power-as-a-Service (PaaS) is a business model whereby customers pay as they use service without having to make any upfront capital investment thus converting their Capex into Opex.

PaaS model usually takes the form of a subscription for energy storage devices (Batteries) owned and maintained by the service provider company to deliver the desired energy back up in case of grid failure.
